146. Zuckerberg, Mark - CEO, Facebook

NOTES:

This list of war criminals who can and should be prosecuted at war crimes tribunals, is a work-in-progress; **omissions are not intentional**; the conspirators' web is complex. I'll continue to update it as my research continues, and as state and federal war crimes investigations move forward.

The list does not include many members of Congress by name, other than Nancy Pelosi; it includes "Many, if not all - members of Congress, 1983-present." This is because tracking the bill sponsors, committee memberships, hearing transcripts, and roll call votes for the many Congressional acts passed since 1983 to enable and fund the ongoing DOD-HHS mass murder campaign is work I haven't had time to do. When the federal and state investigations get underway, that research will get done, to support the prosecution of pivotal individual Congress members.

The original post also included a starter list of laws empowering state and federal prosecutors and judges to investigate, charge and bring people to trial.

Summary list of the crimes:

- war crimes as defined by the 1949 Geneva Conventions, Common Article 3 (torture; cruel or inhuman treatment; performing biological experiments; murder; mutilation or maiming; intentionally causing serious bodily injury; rape; sexual assault or abuse; taking hostages; outrages upon personal dignity, in particular humiliating and degrading treatment);
- impersonating a federal officer;
- disloyalty of public office holders;
- rebellion or insurrection;
- treason (levying war against the United States or adhering to their enemies, giving them aid and comfort);
- sedition; advocating overthrow of US government, Constitution and laws;
- murder; attempted murder; conspiracy to commit murder;
- genocide;
- development and use of biological and toxin weapons, chemical weapons and weapons of mass destruction;
- terrorism; financing terrorism; harboring or concealing terrorists;
- fraud; perjury; subornation of perjury; falsification and concealment of material facts;
- concealment, removal or mutilation of public records;
- theft;
- bribery; extortion; interference with commerce by threats, violence, robbery or extortion;
- conspiracy against rights;
- deprivation of rights under color of law.
