

Repeal county Public Health Emergency kill box law 'emergency operations plans' and withdraw from county-state and county-federal kill box contracts.

For readers interested in working at the county level to repeal county PHE plans and contracts

I don't have a draft of the repeal bill how-to written specifically for county-level work.

The documents you would be looking for, and would ask your county commissioners to repeal or withdraw from, include:

County-level emergency management plans that link the county to the state emergency management systems, and to the National Response Framework (NRF) and National Incident Management System (NIMS).

Example from my Pennsylvania county:

- Feb. 2021 - Centre County Emergency Operations Plan¹ (Vol. 1)

AND

County-signed grant agreements (through which the county accepts state or federal funding) also known as Intergovernmental Agreements or IGAs.

Example from Cochise County, Arizona:

- May 2021 - Cochise County, AZ/Arizona Department of Health Services Intergovernmental Agreement².
- Nov. 2021 - Summary analysis of Cochise County-ADHS IGA³; reporting by Colonel Don W. Jenkins (Ret.) and Master Sergeant F. Jack Dona (Ret.) Jan. 21, 2022⁴; Jan. 26, 2022⁵; Feb. 2, 2022.⁶

Of particular importance is the provision (see p. 17, Sec. 1.4 of the May 2021 Cochise County IGA) conditioning county receipt of federal funding on county compliance with current and future terms and conditions embedded in federal executive orders and federal agency directives.

Once you identify and get copies of those plans and contracts, you would explain to the county commissioners how they fit within the kill box framework, and list those in the draft repeal and/or contract withdrawal bill that you would present for them to adopt.
